EDUCATION

Coding Bootcamp at UNC Chapel Hill | Chapel Hill, NC

July 2024- January 2025

Anticipated graduation in January with a Certification in full Stack Web Development

Rockingham Community College | Wentworth, NC

August 2021- May 2023

Associate Degree in Respiratory Therapy

UNC Greensboro | Greensboro, NC

August 2020

Bachelor of Science, Kinesiology

CODING EXPERIENCE

- **Languages:** JavaScript, SQL
- **Front-End:** HTML, CSS, React, Typescript, Bootstrap
- **Back-End:** Node.js, APIs
- **Databases:** SQL, postgresSQL
- **Tools & Frameworks:** Git, GitHub
- **Other:** Responsive Design, Testing & Debugging, Problem Solving

PROJECTS

Weather-Dashboard

Description: Developed a dynamic weather application that allows users to check real-time weather information for cities worldwide.

- **Tech Stack:** HTML, CSS, JavaScript, OpenWeatherMap API
- **Features:** Fetches real-time weather data using the OpenWeatherMap API, displaying details such as temperature, humidity, wind speed, and weather conditions.
- **Highlights:** Implemented API integration to deliver accurate weather updates; designed a responsive, user-friendly interface for seamless cross-device accessibility.
- **GitHub Link:** <https://github.com/mwahba624/WEATHER>

Vehicle Builder

Description: Developed a command-line application using TypeScript that allows users to create, customize, and interact with various vehicle types, including cars, trucks, and motorbikes.

- **Tech Stack:** TypeScript, Node.js
- **Features:** Enables users to select or create vehicles with unique properties and perform actions specific to each type, such as driving, wheeling, and towing.
- **Highlights:** Leveraged TypeScript's strong typing to build a robust and maintainable codebase; implemented object-oriented principles to model unique behaviors and properties for each vehicle type, enhancing code organization and readability.
